

## 2008 Safety rules and regulations .

These Rules & Regulations have been issued by the MRA & Wakefield Park management for the purpose of clarifying the scrutineer's requirements for all vehicles competing in MRA races at Wakefield Park.

The management of Wakefield Park or the MRA reserves the right to amend or alter these requirements at any time with reasonable prior notice.

All vehicles, safety equipment and clothing must continue to comply with all Motorsport requirements unless specifically varied by these Supplementary Rules & Regulations.

1. Seats are acceptable if presented in good condition with no cracks in the main construction points. *Seats do not have to be dated.*
2. Seat belts/harnesses are acceptable if presented with no tears, broken stitching or signs of stretching. Buckles must be in good working order. *Seatbelts do not have to be dated*
3. Fireproof gloves & socks are acceptable provided they have no holes, broken stitching, or have worn thin.
4. Boots (fireproof) are acceptable if they have no holes, broken stitching or badly worn soles.
5. Driving suits are acceptable if presented in good condition with no holes, tears, broken stitching or worn thin in parts. Driving suits if they are single layer must also wear fireproof underwear.
6. Helmets are acceptable if presented in good condition with no loose stitching; internal padding must be in good condition; & deep scratches or gouges etc must not impair the integrity of the external shell.
7. All of the above safety equipment must have been approved for motor sport at the time of its manufacture.
8. Window nets are compulsory on all cars that do not have the standard manufactured window.  
For cars that have a standard working window without a window net must compete with the drivers window wound up completely.
8. Roll cages must be fitted to all cars that are competing in a competition event. Alloy cages are acceptable on cars built prior to 2000 and cars built after 2000 will have to have a steel cage. *Full roll cages are mandatory for the following classes. Sedans category all class's. Mini category Group "N" class may run as a minimum requirement a half cage. Clubman class cars must have fitted a half cage with the main hoop above the driver's head as a minimum safety requirement.*
9. All cars must have an in date & workable fire extinguisher with at least a 900g capacity.
